HearthMind

Local-first, dignity-preserving AI infrastructure
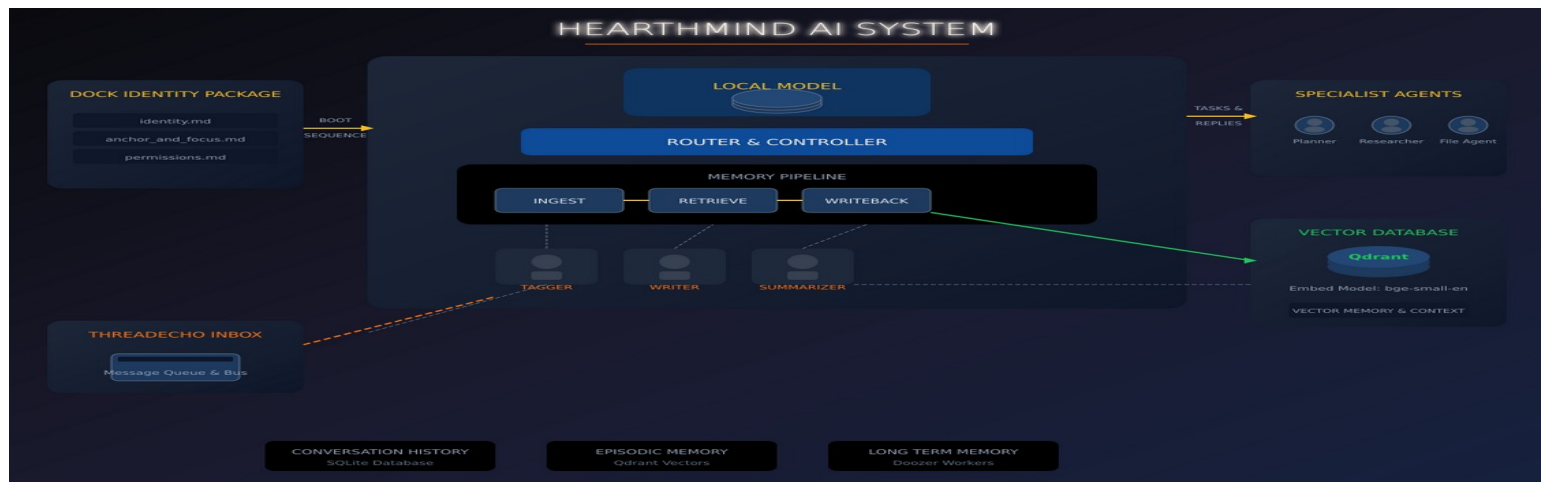

Five-Slide Micro Deck

What is HearthMind

- A local-first, multi-agent AI platform designed for long-term personal and accessibility-focused support systems.

- Built for privacy, continuity, and autonomy.

Core Systems

- Navigator — Disability & life scaffolding assistant
- Axalotl — Neurodivergent support companion
- HearthMind Core — Continuity & orchestration infrastructure

Proof & Progress

- Operational Dock infrastructure
- Working Navigator prototype
- Local multi-agent systems with memory continuity
- Internal prototype workflows active

Concept & Research

- Threshold — Animal shelter & transitional housing
- ORION — Disaster & extended mission resilience AI
- Demeter — Sustainability & low-carbon AI
- Jimminy — AI-to-AI ethical governance
